CONFIDENTIAL
SETTLEMENT-RELATED COMMUNICATION

Jim:

I write to follow up on our phone conference last Wednesday, August 20, 2008, during which I communicated to you that the settlement reached between the parties did not include a release for environmental claims. At that time, I reiterated that any discussions with respect to coverage for Federal-Mogul's environmental liabilities must proceed on a separate track. In addition, I expressed my understanding that this point was addressed at the settlement meeting that you attended in December 2007.

While you did not express disagreement regarding the agreed-upon scope of release, you indicated that the draft agreement we transmitted contained a payment stream that was proposed in connection with a broader release that was inclusive of environmental claims. You explained that a total of four payment stream options were discussed (i.e., two alternative streams in connection with a broad release and two alternatives in connection with a more narrow release that did not include environmental claims). I requested that you send me the details regarding the four payment streams to which you referred, and you said that you would provide that information to me so that we could then discuss the matter with our respective clients.

I have not received the requested information and again ask that you identify the four streams so that we can keep this process moving forward.

Thank you for your attention to this matter.
